PROFESSIONAL SUMMARY

Versatile Full Stack Developer with a strong theoretical foundation from the University of Bahrain and intensive, project-based engineering at Reboot Coding Institute. Proven track record in building scalable web solutions (React, Go, Laravel), mobile applications (Flutter), and high-performance systems (Rust). Experienced in solving complex real-world problems through the 01Edu peer-to-peer methodology.

SKILLS

TECHNICAL SKILLS

- Languages: Go, Rust, Java, C++, TypeScript, JavaScript, PHP, SQL.
- Web Development: React.js, Node.js, Laravel (MVC), Tailwind CSS, HTML5, CSS3.
- Mobile & Backend: Flutter, Firebase, Supabase, REST API, GraphQL, WebSockets, JWT.
- Tools & Databases: Git, SQLite3.
- Software Design & Architecture:
  Object-Oriented Programming (OOP), Domain Driven Design (DDD), Test Dribven Development (TDD)

Soft Skills

Problem Solving, Analytical Thinking, Team Management, Leadership, Communication, Collaboration, Self-Learning.

PROJECTS

Full System Social Network Website (Reboot Coding Institute)

- Developed a full social network system, similar to Facebook, using React.js and Golang.
- Implemented features with technologies like Go, React.js, WebSockets, Docker, and SQLite.

Smart Road Project (Reboot Coding Institute)

- Contributed to the development of a smart road system.

Online Shopping System (University of Bahrain)

- Developed an online shopping system using Laravel, implementing the MVC architecture.

Other Projects (Reboot Coding Institute)

- Worked on various other projects including a multiplayer FPS game and a forum platform.

EDUCATION & TRAINING

B.S. in Computer Science (University of Bahrain)

- Start Date: September 2022.
- Expected Graduation Date: June 2026, after completing all courses.
- Program Duration: June 2024 – June 2026.
- Requires a 2-month training period upon completion.
- Full Stack Developer Training (01edu) Reboot Coding Institute
- Java Specialization: Scheduled from April 2026 to June 2026.
