PROFESSIONAL SUMMARY

Full Stack Software Engineer with hands-on experience building scalable web, mobile, and system-level applications. Skilled in React, Go, Flutter, and Rust, with a strong focus on real-time systems, backend architecture, and performance. Passionate about solving complex problems and delivering efficient, production-ready solutions.

SKILLS

TECHNICAL SKILLS

Languages:Go,Rust, Java, C++, TypeScript, JavaScript, PHP, SQL.

- Web Development: React.js, Node.js, Laravel (MVC), Tailwind CSS, HTML5, CSS3.
- Mobile & Backend: Flutter, Firebase, Supabase, REST API, GraphQL, WebSockets, JWT.
- Tools & Databases: Git, SQLite3.
- Object-Oriented Programming (OOP), Domain Driven Design (DDD), Test Dribven Development (TDD)
- Software Design & Architecture:

Soft Skills

Problem Solving, Analytical Thinking, Team Management, Leadership, Communication, Collaboration, Self-Learning.

PROJECTS

- Social Network Platform (Full Stack)

Built a full social networking system with real-time chat, posts, groups, and notifications using scalable backend architecture. "React, Go, WebSockets, Docker"

- Sooqna Marketplace App (Mobile)

Developed a cross-platform buy & sell application with authentication and dynamic product management. "Flutter, Supabase"

- Localhost HTTP Server (Systems)

Implemented an HTTP/1.1 server from scratch with non-blocking I/O, request handling, and session management. "Rust, TCP, epoll"

- Net-Cat TCP Chat (Systems)

Built a concurrent multi-client chat server handling real-time communication and message broadcasting. "Go, TCP, Goroutines"

- Smart Road Intersection (Simulation)

Designed a traffic system simulation with collision-free algorithms and real-time vehicle coordination. "Rust, Algorithms"

EDUCATION & TRAINING

- B.S. in Computer Science (University of Bahrain)
- Full Stack Developer reboot coding institute
- Java full Stack specialization reboot coding institute
- Mobile application specialization reboot coding institute
